GEOGRAPHY & CLIMATE

Kazakhstan has a diverse landscape including mountains deserts steppes and lakes. The country experiences a continental climate meaning it has hot summer and cold winters. Winters can be extremely cold with temperatures dropping to -40°C in some regions while summers can be hot, reaching +40°C in southern parts.

The country is rich in natural resources such as oil, gas, coal, uranium and minerals making it one of the wealthiest nations in terms of energy reserves. Kazakhstan's natural beauty includes the Altai Mountains the Caspian Sea and the vast steppes which cover nearly 60% of its land.

It involves countless wild steppes with fresh- and saltwater lakes, a unique pine forest making the country particularly charming. The Tien Shan Mountains is the world's second largest and most significant canyons.

HISTORY & CULTURE

Kazakhstan has a rich history dating back to the silk Road era. It was once home to nomadic tribes and later became part of the Mongol Empire under Genghis Khan. In the 19th century, it became part of the Russian Empire and later joined the Soviet Union. Kazakhstan gained independence on December 16, 1991 after the collapse of the Soviet Union. The country has a multicultural society with more than 130 ethnic groups including Kazakhs, Russians, Uzbeks, Ukrainians and Tatars. The official language is Kazakh but Russian is widely spoken in daily life business and education. The majority of the population follows Islam but there are also significant numbers of Christians and other religious groups. Kazakhstan celebrates many traditional and modern festivals including Nauryz (Persian New Year), Independence Day (December 16) and Constitution Day (August 30). Kazakh culture is deeply connected to horse riding traditional music and hospitality.

Faculty Members and Future Medical Professionals

It is my great pleasure to welcome you to South Kazakhstan Medical Academy (SKMA) a prestigious institution dedicated to academic excellence research and professional medical training. Since its establishment SKMA has been committed to providing high-quality medical education that meets international standards.

At SKMA we strongly believe that medical education is not just about acquiring knowledge but about developing skills ethics and a sense of responsibility toward humanity. Our mission is to train highly qualified doctors researchers and healthcare professionals who can contribute to global healthcare and improve the well-being of society.

We are proud to have a diverse and experienced faculty including specialists from various fields of medicine. They are committed to mentoring and guiding students through every step of their medical journey. Our well-structured curriculum modern laboratories advanced clinical training and research opportunities ensure that students receive a comprehensive and practical education.

As a university we continuously expand our global partnerships with international universities and research centers. Our collaborations with medical institutions in India, Russia, Europe and the USA provide students with international exposure and opportunities to participate in exchange programs, research initiatives and clinical internships.

For international students including those from India and other countries we offer an English-medium MBBS program making education more accessible. We ensure a safe and welcoming environment where students can focus on learning and personal growth.

I encourage every student to work hard stay curious and take full advantage of the resources available at SKMA. The journey to becoming a doctor is challenging but deeply rewarding. We are here to support you every step of the way.

Welcome to SKMA, where your future in medicine begins!

RECTOR'S Message

Zh. Setizhabova

South Kazakhstan Medical Academy
Shymkent, Kazakhstan

Dear Students Faculty Members and Esteemed Guests

It is my privilege to warmly welcome you to SKMA.

Our institution stands proudly as of the leading medical academy in Kazakhstan

As a Vice Dean of SKMA, I feel that Medical Education is not just about acquiring theoretical knowledge it is about developing critical thinking problem-solving skills and compassion toward patients. At SKMA we aim to nurture future doctors who are not only skilled professionals but also ethical and responsible healthcare providers. Our University is equipped with modern classroom state-of-the-art laboratories well-furnished libraries and high-tech medical research centers to ensure students receive a holistic learning experience. I recognize that being an international student, especially from India, comes with significant challenges as I was once student myself. To support them we have English-medium programs, experienced faculty, Indian faculty and dedicated mentors who guide them throughout their academic journey. Additionally SKMA has strong collaborations with international medical universities and research institutions offering students opportunities for clinical rotations, internships and exchange programs.

One of our key priorities is to create a safe inclusive and student-friendly environment where learners from different backgrounds feel comfortable and motivated. Our faculty members are highly qualified and dedicated to ensuring that every student achieves their full academic and professional potential. The medical profession demands hard work, perseverance and a lifelong commitment to learning. At SKMA, we are here to support and guide you at every step by providing incredible opportunity for education best clinical and experimental college resources.

We have an immense pride in our commitment to provide World-class medical education, Cutting-edge research & hands-on Clinical training to our Students.

You embark on your journey to become a doctor, I encourage you to stay focused disciplined, and dedicated.

As the SKMA family, we always feel happy and content because we trust you as a responsible individual who makes the right decisions and attracts prosperity in life. We truly believe that education elevates wealth—indeed,, the foundation of lasting success

Welcome to SKMA!
Vice Dean South Kazakhstan Medical Academy

VICE DEAN
Message

Dr. Satyajit Singh

Vice Dean (International Department)

SHYMKENT *City*

Founded over 2,200 years ago Shymkent was an important stop on the Silk Road the ancient trade route connecting Europe and Asia.

- ✓ It is located in south-central Kazakhstan.
- ✓ It is the third-largest city in Kazakhstan located in the southern part of the country near the borders of Uzbekistan and Kyrgyzstan.
- ✓ With a population of over 1 million it is a vibrant and rapidly growing city known for its rich history, cultural diversity & economic significance.
- ✓ It an attractive place to live & study.
- ✓ The city has a mix of historical monuments moderns infrastructure and natural beauty.

Climate & *Lifestyle*

Shymkent experiences a continental climate, with hot summers and mild winters. The city is known for its green parks wide streets and welcoming atmosphere. It is one of Kazakhstan's most multicultural cities, where people from various ethnic backgrounds including Kazakhs, Russians, Uzbeks and other live in harmony.

Education & *Healthcare*

Shymkent is home to several prestigious universities including South Kazakhstan Medical Academy (SKMA) which attracts international students, especially those pursuing MBBS. The city has advanced medical facilities, research centers, and hospitals, providing students with excellent clinical training opportunities.

Tourist Attractions

Some of the popular attractions in Shymkent include:

With its affordable living costs, modern infrastructure and welcoming atmosphere, Shymkent is an ideal city for students and professionals looking to build a successful career.

Abay Park

A scenic place with monuments and walking areas.

Dendropark

A botanical garden with a wide variety of plants and trees.

Shymkent Zoo

One of the largest zoos in Kazakhstan.

Shymkent Plaza

One of the largest Plaza in Kazakhstan.

Ordabasy Square

A historic site symbolizing Kazakhstan's unity.

Why MBBS in KAZAKHSTAN

Kazakhstan has become one of the top destinations for international student pursuing an MBBS degree. Every year thousands of students especially from India, Pakistan, Nepal and Bangladesh, choose Kazakhstan for medical studies due to its affordable tuition fees world-class education and globally recognized degrees.

Key Reasons to Study MBBS in Kazakhstan:

Affordable Education

Compared to private medical colleges in India and other Countries, MBBS in Kazakhstan is much more cost-effective.

Globally Recognized Degree

Medical universities in Kazakhstan are recognized by WHO, NMC (INDIA), USMLE, ECFMG and FAIMER allowing graduates to work worldwide.

English-Medium Programs

Most universities including South Kazakhstan Medical Academy (SKMA), offer MBBS in English making it easier for international students.

Advanced Infrastructure

Universities have modern laboratories well-equipped hospitals and advanced research centers for practical learning.

Safe & Student-Friendly Environment

Kazakhstan is a politically stable country with low crime rates, making it a safe choice for international students

WHY STUDY MBBS ^{at} SKMA?

South Kazakhstan Medical Academy (SKMA) is one of the most prestigious and wellrecognized medical institutions in Kazakhstan. It has gained popularity among international students especially from India, Pakistan, Nepal and Bangladesh due to its high-quality medical education affordable tuition fees and globally recognized degree.

The University started its operation in the year 1979. More than 11000 medical students and PHD students are part this university. 1500 faculty members are associate with this college & hospital of SKMA. It is having 200 doctors of science, 130 professors and more than 500 candidates of MBBS along with 15 – laureates of state prizes.

SKMA is a preferred choice for the international student's community in which the Indian students are the most enrolled. There are many reasons to choose SKMA as a destination to study MBBS

KEY REASONS TO CHOOSE MBBS *at* SKMA

Globally Recognized Degree

SKMA is recognized by WHO, NMC (India), FAIMER, ECFMG and other global medical councils.

Graduates are eligible to appear for FMGE (India), USMLE (USA), PLAB (UK) and other licensing exams worldwide.

Affordable Tuition Fees

Compared to private medical colleges in India and other countries, SKMA offers MBBS at a lower cost. No donation or capitation fees are required for admission. Low tuition fees can be paid in instalments/ semester wise. 100% scholarship is an award for the students.

English Medium MBBS Program

The MBBS course is offered in English, making it easier for international students to study and understand. Indian faculty members help students prepare for FMGE and NEXT exams. SKMA had best previous result in FMGE Examination. Admission to SKMA require DUOLINGO, IELTS or TOEFL scores making it accessible to a wider audience.

Modern Infrastructure & Clinical Training

SKMA employs modern teaching techniques including

- ✓ Smart classrooms with digital learning tools
- ✓ Virtual dissection labs for better understanding of human anatomy. Simulation-based learning using medical mannequins.
- ✓ Regular clinical exposure in hospitals under expert supervision. International Recognition & Career Prospects.
- ✓ SKMA provides well-equipped laboratories, advanced medical research centres, and a vast library. Students gain practical experience through training at leading hospitals and clinics in Kazakhstan. Safe & Student-Friendly Environment
- ✓ Kazakhstan is a safe and peaceful country and SKMA offers separate hostels for boys and girls with 24/7 security. The university provides Indian food in mess & hostel facilities making it comfortable for Indian students.

Cultural Diversity & International Exposure

SKMA has students from different countries providing a multicultural environment.

The university is actively involved in international collaborations and student exchange programs

SOUTH KAZAKHSTAN MEDICAL ACADEMY:

A BENCHMARK OF INSTITUTIONAL EXCELLENCE

It represents a confluence of tradition, innovation, and academic leadership. The institution is distinguished by its commitment to excellence in medical education, research, and clinical practice.

Its core strengths include:

Comprehensive international student support framework

FACULTY OF MEDICINE AT SOUTH KAZAKHSTAN MEDICAL ACADEMY (SKMA)

The Faculty of Medicine at South Kazakhstan Medical Academy (SKMA) is one of the most renowned medical faculties in Kazakhstan offering world-class education, modern research facilities, and extensive clinical training. The faculty is dedicated to producing highly skilled, knowledgeable, and compassionate doctors who can contribute to the global healthcare system.

Experience FACULTY

SKMA has Indian Faculty member with extensive experience in their fields. This translates to a wealth of knowledge and practical insights passed on to students.

Focus on Practical Knowledge

SKMA's medical programs often prioritize practical training alongside theoretical knowledge. This can be facilitated by teachers who integrate real-world scenarios and case studies into their teaching.

International Standards:

The curriculum in SKMA medical university is typically designed to meet international standards. Teachers ensure students are exposed to the latest medical advancements and practices.

English Medical Instructions

SKMA offers MBBS program entire in English. This eliminates the language barrier for Indian students and allows them to focus on their studies. Bridge the Gap: - Indian teachers bring a unique cultural perspective and fluency in Hindi and other Indian languages fostering inclusivity and enriching the learning experience for international students.

Strong Academic Background & Skill

Highly Qualified: - A large pool of Indian teachers holds advanced degree (Masters, PhDs) from reputed universities both in India & abroad.

Diverse Skill Sets

They offer expertise in various fields like clinical, medicines, surgical, propaedeutic etc.

INDIAN FACULTY AT SOUTH KAZAKHSTAN MEDICAL ACADEMY (SKMA)

We have brilliant & prospective faculty from India.

SKMA has more than 12 years of teaching experience of Indian faculty and has remarkable knowledge on the subject. Some of them are "Gold Medalist" and "Fellowship" in Indian Medical Colleges.

Dr. Hitesh Krishna

SKMA has 4 Hospitals in SHYMKENT CITY:

1. Phosphorus Hospital
2. Cardio Hospital, Shymkent
3. City Hospital, Shymkent
4. Radiance Hospital, Shymkent

SKMA have above these shymkent hospitals where all the medicos (students) will practice for their clinical rotation-ship.

Tie-Up with Indian Medical Universities / Institution

The foremost objectives of the MOU

South Kazakhstan Medical Academy (SKMA) has established strong academic collaborations with leading Indian medical universities to enhance the quality of education and provide better career opportunities for students.

- Max Healthcare, one of India's leading hospital networks, has entered into a formal Memorandum of Understanding (MOU) with South Kazakhstan Medical Academy (SKMA).
- The collaboration enables SKMA students to participate in structured observership programs at MAX Hospitals during their summer vacations in India. (4 weeks) Students gain valuable practical exposure in real hospital environments, enhancing their understanding of clinical procedures and patient care.

Nims University
Jaipur, India

- SKMA has signed an MoU with NIMS University, one of India's top medical institutions.
- The collaboration focuses on academic exchange programs research projects and faculty training.
- SKMA students benefit from guest lectures webinars, and clinical training programs conducted by NIMS faculty.

JSS Medical College
Mysore, India

- SKMA has also partnered with JSS Medical College, Mysore a renowned institution in India.
- The MoU includes joint research initiatives medical workshops and student exchange programs.
- This partnership helps SKMA students get hands-on experience in Indian hospitals and exposure to India's healthcare system.

Delhi Academy of Medical Science

These partnerships strengthen SKMA's commitment to providing world-class medical education making it an ideal choice for Indian students pursuing MBBS abroad. This collaboration strengthens the academic and professional success of SKMA students aspiring to practice medicine in India.

South Kazakhstan Medical Academy (SKMA) has a tie-up with DAMS (Delhi Academy of Medical Sciences) to provide Indian students with additional and NEET-PG.

DAMS Collaboration:

DAMS offers online and offline coaching mock tests and study materials to SKMA students to enhance their exam preparation.

Objective The partnership aims to help Indian students studying at SKMA clear licensing exams easily and pursue medical practice in India.

Benefits of Tie-Ups with Indian Universities/Institution

- Better academic exposure with Indian medical experts.
- Access to DAMS' quality faculty and study resources.
- Increased chances of success in FMGE and NEET-PG.
- Joint research & exchange programs.
- Regular assessments and performance tracking.

The HOSTEL

South Kazakhstan Medical Academy (SKMA) provides comfortable, secure and well-maintained hostel facilities for Indian and International students. The hostels are designed to ensure that students have a safe and homely environment, making their transition to a new country smooth and hassle-free.

Accommodation & Facilities

Separate Hostels for Boys & Girls

SKMA offers separate hostel buildings to ensure safety and privacy.

Fully Furnished Rooms

The rooms are equipped with beds, study tables, wardrobes, heaters and Wi-Fi connectivity.

Indian Food Availability

The hostel mess provides vegetarian & non-veg. preferences.

24/7 Security & Surveillance

The hostel premises are under CCTV surveillance and have security guards for student safety.

Laundry & Cleaning Services

Regular cleaning and laundry services are available, ensuring hygiene and cleanliness.

Recreational & Common Areas

Hostels have TV rooms, gyms, indoor sports areas and study lounges for relaxation and group study.

Student Life & ATMOSPHERE

Separate Hostels for Boys & Girls

SKMA offers separate hostel buildings to ensure safety and privacy.

Fully Furnished Rooms

The rooms are equipped with beds, study tables, wardrobes, heaters and Wi-Fi connectivity.

24/7 Security & Surveillance

The hostel premises are under CCTV surveillance and have security guards for student safety.

Laundry & Cleaning Services

Regular cleaning and laundry services are available, ensuring hygiene and cleanliness.

Why Indian Students Prefer SKMA Hostels?

- Safe and student-friendly environment
- Affordable and well-maintained rooms
- Indian food options available
- convenient location near the university

Overall, SKMA provides a comfortable, secure and culturally inclusive hostel experience, ensuring that Indian students feel at home while pursuing their MBBS abroad.

International **RELATIONS**

India and Kazakhstan share strong diplomatic, economic and educational ties, making Kazakhstan one of India's key partners in Central Asia. Their relationship is based on mutual cooperation in healthcare, trade, education, defense and cultural exchange. Over the years both countries have signed multiple agreements to enhance collaboration in various fields including medical education and hospital partnerships.

INDIA-KAZAKHSTAN DIPLOMATIC & EDUCATIONAL RELATIONS

Strategic Partnership

India and Kazakhstan established a strategic partnership in 2009, strengthening ties in healthcare, education and business.

Medical Education Collaboration

Many Indian students pursue MBBS in Kazakhstan, thanks to partnerships between Kazakhstan Medical Universities and Indian Institutions.

Exchange Programs & Scholarships

Kazakhstan offers student exchange programs, while Indian universities provide training and research opportunities for Kazakhstan medical students.

Tie-Up with Indian Medical Hospitals

South Kazakhstan Medical Academy (SKMA) has established MoU's with leading Indian medical universities and hospitals to enhance clinical training and research opportunities for students. Some notable partnerships include.

**INTERNATIONAL
MEDICAL
EDUCATION
DIRECTORY (IMED)**

The International Medical Education Directory (IMED) is a free web-based resource for accurate and up-to-date information about international medical schools that are recognized by the appropriate government agency in the countries where they are located.

United Nation Educational, Scientific & Cultural Activities

As part of our goal to build information resources on medical education worldwide, FAIMER is developing a directory of international organizations that recognize, authorize, or certify medical schools and/or medical education programs. These organizations are often responsible for the establishment of national standards for medical education and the recognition of medical schools in their countries.

International Opportunities in Medical Education

As medical students and faculty interest in cross-cultural education and global health increases, it is important to have a better understanding of the variety and scope of available international education opportunities. FAIMER and the Association of American Medical Colleges (AAMC) have joined together to collect information about the international activities of U.S. allopathic medical schools and to make that information available to the public. SKMA is listed in the World Health Organization and recognized globally as Kazakhstan's only semi-government medical college in Shymkent worldwide.
